a litigation partner

high-stake legal battles

to secure settlements

a taste for acting as a child

to distinguish yourself

be provocative

to translate into trial work

to hang up acting boots

from day one

be brainwashed

a crisis of faith

to buy myself some time

my heart wasn't in it

have a good fortune

to deliver blows against the empire

to take on a huge case

a personal injury award

product liability cases

to outmanoeuvre sm

to carve a niche

to deliver a closing argument

the theatrics

candid

to speak your truth

to dramatise sth

from the cynicism

on the side of history

to live and breathe

to live off sm's money

not a facade

on the verge of bankruptcy

to put everything on the line

not to get a dime

become litigious

to further the betterment of society

to vindicate the profession

reprehensible

to run sm into the ground

to outlast your wallet

a robust regulatory system

to leverage technology

a triumphant victory
